**Rooms full of life.**

**MEISTER**

What actually is ...  
Lindura?

- »» Novel wood flooring in château plank format
- »» Especially durable thanks to fusion with wood powder
- »» Wood powder: Wood fibres, mineral substances, colour pigments, melamine resins
- »» Special look with rustic grading: Used look with contrast-rich filled scratches and knots

Lindura  
wood flooring:  
**High-tech  
meets nature.**

## Robust

The real wood covering layer is reinforced with wood powder, which means loads are not a problem for Lindura.

## Durable

The wood powder makes Lindura so tough that a metal bearing with 4000 newtons of pressure barely leaves an impression – unlike for standard parquet.

## Easy to maintain

The Lindura surface is extremely easy to clean and insensitive.

## Healthy living

Lindura is a natural product. All the materials used are selected carefully and are subject to regular tests in our labs.

## Energy-saving

Thanks to the special product structure, Lindura's thermal resistance is particularly low at 0.084 m<sup>2</sup> K/W combined with the MEISTER-Silence 25 DB insulating underlay. This reduces loss of heat to a minimum.

## Château plank format

With their low installation height of 11 mm, the two attractive large plank formats are also suitable for renovations.

## Unique look

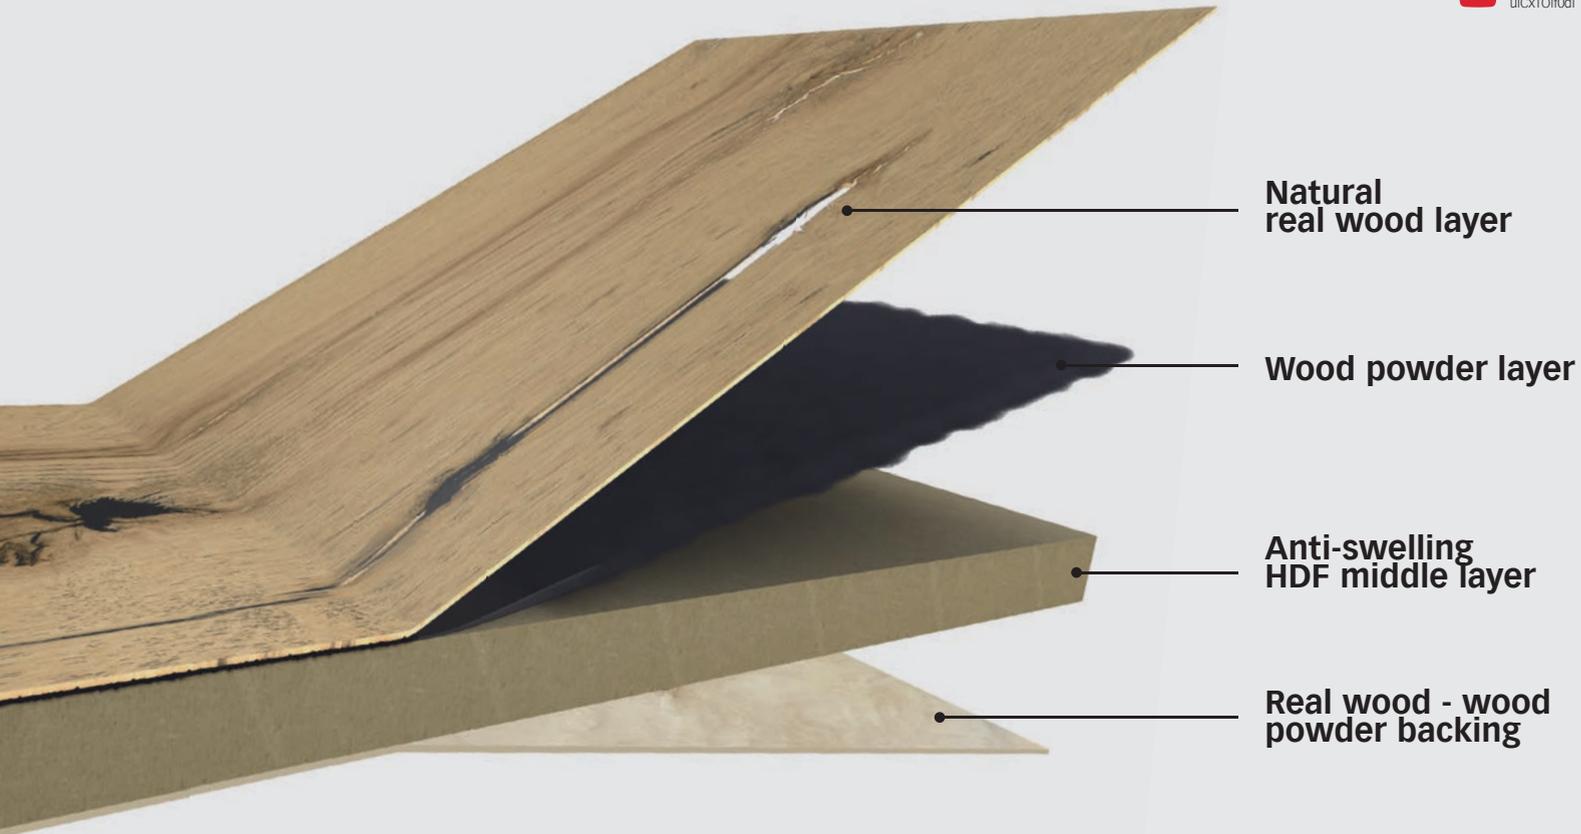

Compression with wood powder gives the fillings of scratches, knots and pores a great look that could not be achieved with standard filling techniques.

# Product structure

Wood and high-tech materials combine to form an innovative floor covering. **Lindura**.

 <https://youtu.be/uICxTOIfodI>

## Lindura vs. standard parquet

| Press-in behaviour compared to standard parquet  
improved by up to three times

| Château plank format vs. standard formats

| Special used look

Press-in behaviour comparison:

# Unbeatable qualities

An impressive look:

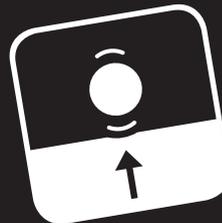

## Naturally oiled:

- | 15 surfaces in 3 different gradings
- | Fashionable used look

## Matt lacquered:

- | 10 surfaces in 3 different gradings
- | Elegant, natural woods

## Totally stable:

- | Durable surface with wood powder
- | Stable HDF middle layer

Suitable for commercial use:

| Hardly flammable (B<sub>fl</sub>-S1)

| Part of the verified complete floor system systofloor Hugo (in cooperation with Knauf Gips KG)

Attractive château plank formats:

| 2600 × 320 mm | 2200 × 270mm

| Thickness: 11mm

| Patented Mastercllic Plus click system

2200 × 270mm

2600 × 320mm

Extremely easy to clean.

| The fusion of the real wood covering layer with wood powder closes even the smallest wood pores.

| Closed pores reduce the attachment of dirt and simplify cleaning.

| For naturally oiled surfaces can be cleaned and maintained with wood soap (CC Dr. Schutz) in a single work step. For matt-lacquered surfaces, we recommend CC Wood and Cork Floor Cleaner.

# Lindura – also for commercial use

Award-winning!  
**Quality from MEISTER.**

### MEISTER warranty

We are so convinced of the quality of our Lindura wooden floors that we give you a 20-year warranty on them.

Warranty according to the MeisterWerke warranty conditions at [www.meister.com](http://www.meister.com)

### The Blue Angel

The result of our responsible choice of materials and modern manufacturing processes is that all MEISTER floors carry the Blue Angel – the world's first and most well-known award for environmentally friendly products and services.

### Lindura®

Wood powder technology produced under the licence of Välinge.

### Real wood

Naturally authentic: With our Lindura wood flooring you are bringing the authenticity of a natural wood surface into your home.

### PEFC

The PEFC Council (Programme for the Endorsement of Forest Certification) is the world's largest organisation dedicated to promoting sustainable forest management through forest certification and the labelling of timber products. Products with the PEFC label provide the certainty that the raw materials come from sustainably managed forests.

By using the logo we are making a commitment to supporting the ecological and socially responsible management of forests in accordance with PEFC Deutschland e. V.

### CE mark

MEISTER Lindura wood flooring complies with all European health and safety regulations.

### MADE IN GERMANY

We are firmly rooted in our location and see it as much more than just the name of where we come from. For us, "Made in Germany" also means top quality standards. It is our daily challenge to meet these.
