

FSC® Certified | Hallmark Floors Cares

FSC® Certified stands for **Forest Stewardship Council®** and it is a nonprofit organization committed to the advancement of responsible forest management globally.

The mark of
responsible forestry

Hallmark Floors engineered hardwood flooring, uses premium PEFC Certified French and USFS Certified North American Species. American Walnut and French White Oak have been the premium woods used in fine furniture and cabinets for centuries. Sourced from sustainable sources, Hallmark's hardwood floors are ideal for your home.

Hallmark Sustainability: Sourced from sustainable sources only. PEFC Certified French and USFS Certified North American. Uses FSC® certified material – certification on file.

Hallmark Floors uses FSC® certified material, we take our responsibility to the environment seriously. We are [Carb II compliant](#).

Hallmark Floors' Green Commitment

Environment Stewardship

At Hallmark Floors, we take *Environmental Stewardship seriously* and have since our inception over 12 years ago. As a result, we have led the way with Ultra low VOC (Volatile Organic Compounds) in our finish and core materials, as well as responsibility in how we source the lumber that makes our floors so durable, easy to clean and beautiful.

Breathe Easy With Hallmark Floors Green!

Recently, California has passed stringent requirements that exceed the **US OSHA** requirements referred to as **C.A.R.B. II** or the California Air Resources Board. They have a Phase 1 and a Phase 2 requirements to allow manufacturers time to make the necessary changes to these important air quality standard improvements. As suggested by evidence, the health of people living in a closed home is influenced by the VOC's that are emitted by building materials.

Hallmark Floors is proud to have been **third party certified** by the Regulatory agency responsible with certifying compliance, as having passed Phase 2 well before it is required (since 2008).

FACT: *Hallmark Floors passed these standards years ago and has verified US Based Independent testing to confirm this.*

While others companies "suddenly" become compliant, Hallmark Floors has been CARB II compliant since 2008. We strongly believe in delivering a quality product that you can take pride in. Further more, we genuinely care about our customers, before it was required or fashionable, we adapted our processes and reducing VOC's in our products long. We didn't just suddenly jump on the band wagon, like other companies. We have families too and we understand the need to ensure their welfare by providing the best quality product your living space.
