

# Sika<sup>®</sup> AcouBond<sup>®</sup>-System

## PROFESSIONAL SOUND CONTROL

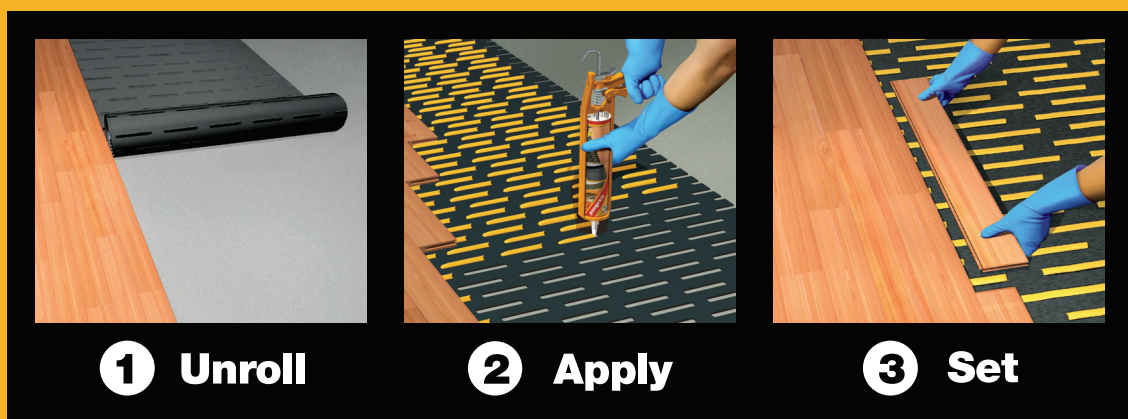

- Innovative installation method
- Reduces substrate stress
- Controls adhesive consumption

# Sika® AcouBond®-System PROFESSIONAL SOUND CONTROL

The Sika AcouBond-System incorporates Direct Bond Technology with acoustic performance. The Sika AcouBond-System consists of SikaLayer-03, a 1/8" (3 mm) proprietary specially slotted foam mat, and SikaBond-T53, a unique permanently elastic, super strong, sound dampening adhesive that forms a tenacious bond to wood flooring, plywood subfloors, concrete, and other common subfloor materials.

## FEATURES AND BENEFITS

- $\Delta$ IIC of 24 dB (ASTM E 2179)
- Structurally bonds wood flooring to subfloor
- Eliminates the need for cork underlayments
- Innovative walk-on work method
- Can bond wood floors directly to old ceramic tiles
- Dimensionally stable and pressure resistant
