

BONA TOTAL SANDING SOLUTIONS

BONA DUST CONTAINMENT SYSTEM

Why Dust Containment

Dust containment has become an expected service among consumers. They have become more aware of their dust-free sanding choice, and they realize they don't have to put up with the mess or health risks. That is why Bona has pioneered the most powerful, portable, and effective dust containment systems ever. The Bona Atomic® Dust Containment Systems are the necessary innovations to push your business forward, offering increased customer satisfaction, higher quality results, and healthier working conditions. Bona Atomic Dust Containment Systems are GREENGUARD Indoor Air Quality Certified®, and the Bona system is the only GREENGUARD certified hardwood floor system in the industry.

Bona's innovative dust containment systems provide:

- Increased customer satisfaction - virtually eliminates the nightmare of dust throughout the home
- Higher quality results - eliminates airborne dust that would settle back down into the finish
- Healthier working conditions - wood dust is a known carcinogen*
- Less time spent on site - no time consuming prep work of hanging plastic or costly clean-ups

*10th Report on Carcinogens. U.S. Department of Health and Human Services, Wood Dust, 2002.

Dust Evacuation

Bona® Atomic Van

The innovative concept of the van-mounted Bona Atomic Dust Containment System means having a more powerful system while providing evacuation of the airborne dust that is generated from the entire sanding process.

- Ideal for hard-to-access commercial jobs
- Dramatically more powerful system, providing evacuation of airborne dust
- 200 ft. of 2", and 100 ft. of 1.5" non-marking hose connects the sanding machines to the dust collection system in the trailer
- Perfect billboard to advertise your business - can be customized with your company name, logo, phone number and website, plus your choice of a full-color photograph
- GREENGUARD Certified

Dust Containment

Bona Portable DCS® 2.0

Powerful, two motor Portable Dust Containment (PDC) system from Bona! By combining a Bona exclusive two-step cyclonic intake system with a hospital grade HEPA filter, the Portable Dust Containment System delivers the ultimate in dust containment.

- Bona exclusive two-step cyclonic intake system with 2 hospital-grade HEPA filters.
- Powerful 2 motor system
- Meets both EPA & OSHA requirements for Lead standards.
- Uses a Longopac® system (continuous bag) to collect the dust, never exposing the collected dust to the job site.
- Extremely portable and easy to use, weighing less than 110 pounds. Dolly system for easy load/unload.
- Clear dust barrel and filter gauge make it easy to know when unit is full.

Portable DCS

AM0001480	N/A	48

Belt Sanders

Bona® Belt HD

Unique dual-speed pulley system and infinite drum pressure adjustment guarantees optimum sanding quality regardless of wood species. Large diameter drum and heavy-duty travel roller maximize contact with abrasive for powerful sanding.

- Large diameter sanding drum and travel roller keep better contact with sanding belt
- 2 speed pulley system allows for precision sanding on different wood species
- Infinite drum pressure for more precise sanding settings
- Smooth and stable for aggressive cutting and finesse sanding
- Compact for seeing over and around
- Excellent balance between front and back movement transitions
- Great for maneuvering in tight areas
- Integrated travel handle
- Powerful 5Hp motor

SANDING | MACHINES

Belt Sanders

Bona® Belt

Maximize efficiency by using a 10" drum in a 8" chassis. The wider drum increases productivity and produces the flattest floor possible. Special transport wheels provide protection and convenience during transportation.

- Innovative compact chassis for easy maneuvering
- Poly-V drive belt increases power and is even more efficient than regular belts
- Adjustable double feather handle and lever operation. Drum pressure, tracking and cut angle all adjust safely from the top of the machine
- Atomic DCS® compatible. 6" height adjustable handle. 4.0 HP, 60 Hz, 230 Volt, Thermal Overload Protection, travel dolly and nose weight are included

AMO110009.3S	10" (with Travel Base)	187.5 (machine only) 205.5 (machine with travel base)

Sanding Buffers

Bona FlexiSand™ DCS® Buffer

The Bona FlexiSand DCS Buffer's technologically advanced design is engineered for performance, convenience, durability, unequalled power, superb balance and superior dust pick-up. The new low deck design combined with the adjustable illuminator light make working in hard-to-reach places easier than ever before. Push button activated handle is easy to use and is adjustable to meet the needs of any user.

- Innovative vacuum chamber for superior dust pick
- Low deck height for access to toe-kicks and other hard to reach places
- Large wheels for easy maneuverability when transporting
- Hydraulically adjustable handle height at the push of a button
- Features a folding handle for more compact storage
- Floating dust skirt adjusts automatically

Sanding Buffers

Bona Power Drive®

The Bona Power Drive® is a truly all-directional and versatile disc sanding system. It delivers exceptional power and can significantly reduce your edging time.

- Can be used to sand entire floor from the start or follow after one cut with a Bona Belt machine
- Achieves the flattest floor possible eliminating chatter where it starts
- Saves labor time and cost by reducing edging time up to 50-80%

Item Number	Size	Lbs.
AMO310002.5	1	111

Sanding Attachments

Bona Wire Brush Kit

Used with the Bona Power Drive, the Bona Wire Brush gets down into the grain to create texture and unique color dimensions. Items included: 5 Wire Brushes, Dust Shroud & Drive Pad for hand tool, Power Drive XL Dust Skirt, Protective Gloves, Wire Brush Corner Tool, & Wire Brush Removal Tool. **All items are available for purchase separately.**

- Durable, easy-to-use wire brushes for use on-site with both newly installed and refinished floors
- Allows for close proximity to walls for minimized edge work and blending issues
- Removes soft grain leaving the more durable hard grain, providing a natural texture and look to the floor

Item Name	Item Number	No./Case	Lbs./Case
Bona Wire Brush Kit	AT0003018	1	9.8
XL Dust Skirt	AX0003557	1	N/A

Dust Shroud	AX0003557	1	N/A

Bona® Steel Plates

All new Bona® Steel Plates are designed to offer a true hard-plating option during the sanding process, combining the traditional hard-plating technique with newer multi-directional sanding. Specifically created for contractors who rely on the flattest possible sanding systems for their customers, they help remove chatter and prevent dish-out on any surface. Steel Plates are available in 4 x 6" or 6 x 5" with Hook and Loop, to be used with the Bona Power Drive® or the Bona MultiDisc.

- Complements the Wire Brush system and reduces the chance of any dish-out on final sanding
- Essential for creating the flattest floor possible
- More aggressive and efficient sanding
- Great for removing chatter using either the Bona Power Drive® or Bona MultiDisc

5" Bona Steel Plates (set of 6)	AX0003560	2	6.1
6" Bona Steel Plates (set of 4)	AX0003562	2	6.1

Sanding Attachments

Bona Power Drive® Weight Kit

Easy to mount, Bona Power Drive® Weights provide extra pressure, making light work of tough sanding jobs. One weight may even be used when wire-brushing for increased effect. Improves sanding and wire-brushing, increases finish and wood removal, and reduces sanding and edging time.

Kit Includes:

- Two 15 lb. Weights
- Retrofit Kit*
- Installation Guidelines

*A separate weight kit is available without the retrofit kit, for newer Power Drives that have a predrilled chassis.

Note: Only one weight should be used for wire-brushing, as two may damage the brush heads.

Weight Kit (retrofit kit)	AS0003201	1	34.8
Weight Kit (for predrilled chassis)	ASK3199940008	1	31

Edge Sanders

Bona® Edge

The Bona Edge combines all the performance and features of the Bona Edge XL, with the ergonomics, feel and balance of a more traditional edger.

- The control of a traditional edger and toe kick accessibility
- Provides a level of smoothness and balance unmatched in the industry
- Built-in hour meter assists in determining the need for routine maintenance
- Built in lighting for improved visibility
- Dust containment ready

AMO230022.3	7"	31
-------------	----	----

Bona® Edge XL

Engineered for performance, convenience and durability, unequaled power, and superior dust pick-up.

- Designed for performance, convenience and durability
- Unequaled power, superb balance and superior dust pick-up
- "Open-throat" design allows unobstructed air flow in the vacuum chamber
- Access deeper toe kicks and other hard to reach places
- Built in lighting for Improved visibility

AMO230011.3	7"	32
-------------	----	----

Bona® CombiEdge

Versatile edger with interchangeable arms provides excellent reach under the deepest toe kicks and radiators, and can maneuver in tight, hard-to-reach areas.

- Interchangeable long arm and short arm options
- Utilizes 6" sanding discs
- LED light provides excellent illumination
- Lightweight design for greater ease of use
- With very few operations, user can easily convert from Short Arm to Long Arm as needed
- Increased productivity reaching areas other edgers can't

	AS0001508	Lg. 37" to 41"	2	
	AS0001509	X Lg. 42" to 46"	2	

Voltage power station for 230 and 115 volt equipment. Buck/boost for 230 volt equipment with on-line volt meter, and 20 amp breaker for 115v outlets. Accepts input voltage 208v-253v with output of 230v. Configured to work with 4-wire/ GFI outlets. 4-wire pigtail included.

High density polyethylene foam pad for storing or transporting DCS® buffer to keep brush ring from compressing.

Two long-life, high-output fluorescent bulbs protected in a durable, high impact plastic housing. New swivel bracket enables user to have light up to 45° left or right of center for full coverage.

Accessory for the Bona Power Drive including two LED lamps. For better visibility while sanding. The sanding result becomes easier to see.

The Bona Tampico Brush used with a DCS buffer and DCS system helps remove the fine dust from the soft grain of wood prior to sealing, staining or oiling. In addition, it's an excellent tool post wire brushing to achieve a cleaner more textured appearance.

The non-marking plastic brace simply snaps onto the back two wheels of the Bona CombiEdge allowing you to pivot the edger over stair treads, landings and overhangs, expanding your sanding surface with no additional adjustments to the machine.

Allows your body weight to help maneuver sanding machine. Designed for comfort and support with extra-wide padded back. Free with purchase of any Bona Belt Sander.

“ The Bona Power Drive is one of the most productive, labor-saving, and cost efficient hardwood floor sanding systems I have ever used! It saves a pass with the belt sander and edger and decreases orbital sanding by 75% on a job. In total it saves us an entire day of sanding per job. ”

- Gary Sword, Sword Floors

Bringing out the best in hardwood floors.

At Bona US, we are committed to the lifetime of hardwood floors. We are devoted to providing solutions that keep a floor perfect during its entire life. Through our long commitment and constant search for innovation we offer lasting, sustainable results for professionals and floor owners.

Bona is a family-owned company founded in 1919. With its headquarters in Sweden, Bona is now present in more than 90 countries all over the world through subsidiaries and distributors. We provide products for the installation, maintenance and renovation of hardwood floors throughout their lifetime. Today we have solutions for professionals, homeowners and prefinished manufacturers.
